

NOVEMBER TOUR & DINNER MEETING

Thursday, November 21, 2002

PROGRAM:

FALK CORPORATION

- Plant Tour
- Topic: Operations, Products, Market – an Overview of the Falk Company Business History

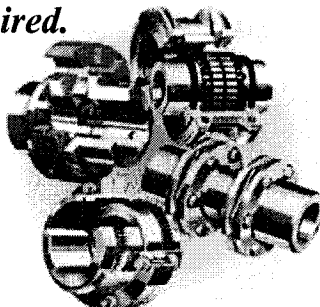

SPEAKERS:

Glenn J. Kormanik, Director of Manufacturing
 Bill Hankes, Engineering Manager

For more than 100 years, the Falk Corporation has been supplying precision power transmission equipment – small and large gear drives, flexible shaft and fluid couplings, custom industrial gearing, marine power systems – to a world wide market.

The Falk Corporation has grown to become one of the world's largest and most diversified sources for gear drives, couplings and related equipment. Global application technologies, along with worldwide availability, make Falk quality accessible, no matter where you are.

Do to the nature of the plant facility tour, no one wearing high heeled shoes, sandals, or open toe nor open heel footwear will be admitted into the building. Please prepare ahead of time and dress accordingly. Closed, stable footwear is required.

Speaker:

Bill Hankes, P.E., Engineering Manager

Bill is a Milwaukee native who received his BSME from Marquette University in 1989. While in school Bill was active in SAE, participating in two Formula SAE events and has remained a member in good standing. After a two-year assignment overseas in Australia, Bill returned to Marquette for his MBA, which was completed in 1999. Bill is a registered Professional Engineer in Wisconsin and is currently an Engineering Manager at Falk. His responsibilities include large open gearing, marine propulsion drives, aftermarket support and new product development.

His Presentation:

- United Technologies/Hamilton Sundstrand/Falk structure
- Global operations
- Products and how we go to market
- AGMA/ISO engineering standards and participation
- Design technologies utilized

Speaker:

Glenn J. Kormanik, MBA, Director of Manufacturing

Glenn began his career at Falk as an Engineering Co-op through GMI Engineering & Management Institute (formerly the General Motors Institute and now Kettering University). Glenn has also earned an MBA from Marquette University. After completing his BS-Mechanical Engineering,

Glenn joined Falk as a Manufacturing Engineer. He has held various manufacturing engineering and operations management roles for both Falk facilities in the Milwaukee area. Currently, Glenn has responsibility for all of Falk's domestic manufacturing including technical support and plant engineering and maintenance. He is also charged with leading Falk's lean manufacturing focus and EH&S initiatives.

His Presentation:

- Manufacturing capabilities worldwide
- Technologies: steel casting, heat treat, gear manufacturing, gear tooth grinding and inspection, assembly, test
- ACE
- Value stream & lean manufacturing (outsourcing, UT500, etc)
