## Student Night – Hosted by the University of Wisconsin - Milwaukee

**Presentations to be given by the SAE Student  
Chapters of Marquette, Michigan Tech., UW-  
Madison and UW-Milwaukee as well as Muskego  
High School**

**5:00 p.m. Tuesday November 11th, 2008**

---

### **Opening Address:**

The nights opening address will be delivered by Dr. Michael Lovell. Starting this current fall semester, Dr. Lovell is the new Dean of the College of Engineering and Applied Science at UW-Milwaukee. Dean Lovell's research is in the field of tribology or the study of friction and the motion of interacting surfaces. Please welcome Dean Lovell in his new role.

### **Student Presentations:**

This school year's format will be a little different. In years past we held this meeting in the spring and the teams usually brought their projects to display. Two issues were caused by this: Teams had to rush to complete projects early in order to display them and the money from the section grant was distributed after a majority of costs (construction costs) had already been incurred.

For this meeting, most of the teams will not be bringing a project with. One known exception is that UW-Madison will have their Hybrid Formula car in the parking lot for viewing prior to the dinner. The student presentations will also gear around how they have used CAD to better their particular design. Whether it be using 3D modeling to help in fitment and assembly or FEA for strength testing or even model based design using Matlab.
