

NOVEMBER DINNER MEETING & PLANT TOUR

Thursday, November 20, 1997

TOPIC: Harley-Davidson Powertrain Operations Growth for Increasing Production Demand

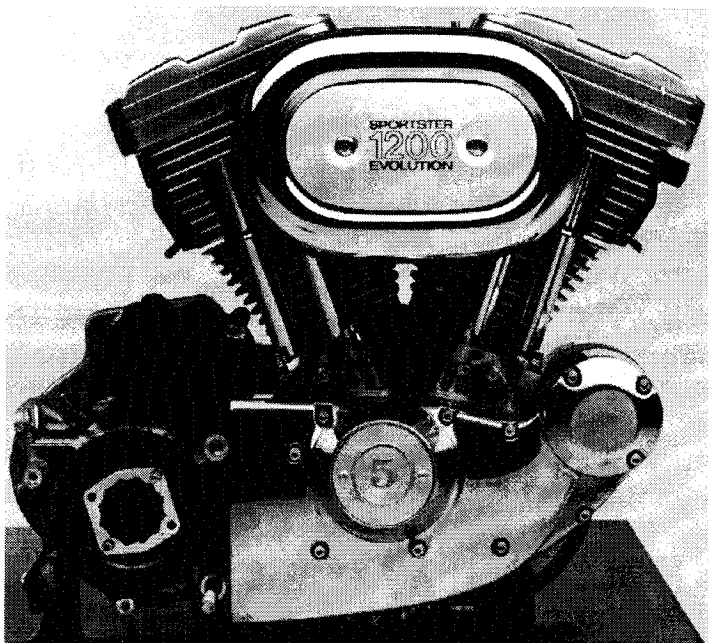

SPEAKERS:

Julie Chichlowski - Manager, XL Manufacturing Support

Scott Heinle - Manufacturing Engineer (XL Engine)

Ron Ackerman - Manufacturing Engineer (Gear & Shaft)

Unprecedented demand for their products has led Harley-Davidson on an aggressive path towards increasing motorcycle production to 200,000 units by the year 2003. The focus of this presentation will be the efforts of the Capitol Drive powertrain plant as they strive to meet the objectives for the manufacturing of the XL and Buell family of engines. Also discussed will be the new Pilgrim Road plant, which will soon be the birthplace of the Evolution engines. A video highlighting the history of Harley-Davidson as well as the new Product Development Center will be shown.

From Your Chairman:

Last month the Milwaukee Section hosted a visit from our 1997 SAE President, Dr. David C. Holloway. Dr. Holloway provided convincing evidence that participation in SAE sponsored design competitions helps prepare engineering students for the real life challenges of today's profession. His presentation clearly outlined the benefits these programs have to the students, universities, mobility industry employers and SAE.

This month we recognize 32 of our senior members who have reached the milestones of 25, 35, or 50 years of active membership in SAE. These members are to be commended for their long term involvement with SAE and their contributions in design, engineering and production of vehicles and their components.

Our November tour and dinner meeting will highlight the impact of world wide demand has on the process of producing an American icon, the Harley–Davidson motorcycle. This is a rare opportunity to view a world–class operation that is as passionate about building motorcycles as it is about charting its own destiny. Harley–Davidson actively encourages employee's to participate in the development of SAE standards and educational programs in the community such as "A World in Motion". If you can't participate in the tour, plan to attend the dinner meeting and hear how Harley–Davidson powertrain products and processes have improved to meet the demand.

Please join your fellow mobility community professionals for an evening of informative discussion and good fellowship. Hope to see you there!

Jim Wilkinson
1997/1998 Chairman
