May 2018 Event

**Thursday, May 17th
4:30pm**

995 Badger Circle,
Grafton, WI 53024

About the Event

About Kapco

Kapco, based in Grafton, Wisconsin, manufactures metal components for customers needing stamping, fabrication, and welding work. Founded in 1972 under Tom Kacmarcik Sr.'s leadership, Kapco continues fulfilling the metal production needs for a diverse set of companies, including some of the world's top brands. With our highly skilled team and state-of-the-art technology, Kapco is the premier choice for stamping, fabrication, welding, and other metal fabrication solutions.

About SpeedKore

SpeedKore is an American Performance Company where engineers and artisans combine traditional craftsmanship with cutting edge technology. SpeedKore manufactures the highest quality carbon fiber upgrades, exceeding OEM quality standards. Designed in America. Manufactured in America

About the Event

This event will begin with a tour of award winning SpeedKore Performance Group who specializes in custom performance vehicles, carbon fiber composite parts manufacturing, and engine integration. See the famous Tantrum up close - the '70 Dodge Charger with a 1650hp [Mercury Racing](#) QC4 engine, which debuted at SEMA in 2015 and received Gran Turismo's "Best Domestic" award. You'll then walk across the street to Kapco's modern, state-of-the-art manufacturing facility where they produce over 150,000 parts daily for top brands across the globe.

About the Presenters

Jim Kacmarcik, President of Kapco, Inc. and its subsidiaries - a diverse group of businesses based in Grafton, Wisconsin. A natural entrepreneur, Jim has formed and funded start-up companies that match his passion for music, sports, and automobiles. Jim is also a visionary community leader who has founded a number of non-profit organizations and endeavors such as Kids2Kids Christmas, the Kapco Charitable Challenge, Hometown Heroes and other ventures.

SpeedKore Performance Group formed in 2015 to produce upgrades for classic and late model automobiles. Services include next-generation carbon fiber parts and complete custom builds for global clientele. Along the way, SpeedKore cars have won awards and been a part of major motion pictures.

Dave Salvaggio, Vice President of SpeedKore was born into a family with auto racing and automotive engineering roots stretching back to 1919. His grandfather was a successful racer in his own right driving cars across the Midwest. His grandfather played an early and crucial role in developing 'The Milwaukee Mile' a one-mile oval racetrack in the Milwaukee area.

Upon graduation from high school, Dave studied at the Ford Institute before embarking on a career in automotive repair. He yearned to bring his own creations to life and soon opened Salvaggio Automotive Design, Inc. where he earned a reputation for creativity and quality while building cars seen in movies such as Fast & Furious and Captain America.

Since joining forces with Jim Kacmarcik and forming SpeedKore Performance Group, Dave continues to create, innovate, and build a client base that stretches around the globe.

Event Agenda

Registration	4:30-5:00pm
Tours	5:00-6:00pm
Presentation/Refreshments	6:00-8:00pm

Registration Fees

SAE Members	\$25
Retirees	\$20
Guests/Non-members.....	\$35
Students	\$5

Registration

Registration Deadline: May 13th

Maximum Attendance: 150

Ways to Register:

- Online via the [SAE Milwaukee website](#) -
- By phone: Garrett Herning – 856-313-0581
- By email: Garrett Herning – sae@c2cintegration.com

Registration required – no walk-ins accepted

Location: 995 Badger Circle, Grafton, WI

SAE Board Nominations, 2018-2019 Year

Nominations for SAE Board Positions for the 2018-2019 year are listed below.

- Chairman - Van Phifer
- Treasurer/Program Manager Chairman - Garrett Herning
- Program Manager Vice Chairman – Kyle Matenaer
- Secretary - Daryl Rothamer
- Vice Chair, Math & Science Education - Negin Salami
- Vice Chair, Membership - Nerissa Cerny
- Vice Chair, Student Activities - Randy Hoffman
- Vice Chair, Student Activities - Guy Campbell
- Company Ambassador - Jim Axt
- Senior Advisor - Kurt Person
- Webmaster - Cara Kazda
- Social Media Manager - Drew Boyer
- Newsletter Editor - Matt Anderson
- *Historian – Open*
- *Vice Chairman - Open*

Formula SAE Judges – Help Needed!

From SAE International Headquarters:

Hello Ladies & Gents!

It is definitely that exciting time of year where the students are frustrated with required submissions and issues fabricating their vehicle but one thing you know is they are still excited to attend Formula SAE Lincoln and Formula SAE Electric this competition season. We hope you are too!

Our competition is returning to Lincoln, Nebraska from **June 20th through the 23rd.**

Just like every year we have many positions to fill for our onsite operations so if you know anyone interested just direct them to our website where they can review what different positions we have available or send them to me as I would be happy to talk with them.

Just a few notes:

1. If you are a returning design judge please feel free to sign up online so SAE can capture all your information for housing, volunteer shirts and count you in our meals BUT please also be sure to email Dave Redszus too! He keeps a master list for his needs!
2. There are a few limited event captain roles and/or assistant positions open. These roles are not available to sign up for online but please contact Kaley Zundel (Kaley.Zundel@sae.org) and SAE can get you affiliated if interested.

Please feel free to contact Kaley Zundel with any questions you may have before signing up online. But note, once you are signed up online Kaley or Ryan Good will be reaching out to you to confirm your roles and fill in any missing information we need.

If you would like more information, you may contact Brian Dondlinger (Brian.Dondlinger@harley-davidson.com), who volunteers as a judge every year.

SAE Board Member Shadow Program

Members, your board of directors has created a new way for you to get involved in the activities of the SAE Milwaukee Section!

Do you like the service and support that your SAE Milwaukee Section provides to you? Do you have some fresh ideas to make your section better? Or.....would you like to just get involved?

If you would like to participate but do not know how to get started, we have the program for you. This new program allows you to shadow a board member to learn the details of what they do for this section. With this opportunity you can investigate/help a position that interests you without jumping in with both feet. This will allow you to participate to the level you are comfortable with, find the position that suits your talents and/or interests, or to serve in a committee with others.

We would like to invite you to Shadow a Board Member.

If you are interested in this opportunity, please contact Randy Hoffman at (920) 397-6644.

SAE Milwaukee STEM/AWIM program

Inspiring Today's Students to Become Tomorrow's Engineers and Scientists

OUR K-8 STEM EDUCATION SOLUTION, A World in Motion (AWIM), is a teacher-administered, industry volunteer-assisted program that brings science, technology, engineering and math (STEM) education to life in the classroom for students in Kindergarten through Grade 8. Benchmarked to the national standards, the AWIM program incorporates integrated STEM learning experiences through hands-on activities that reinforce classroom STEM learning.

Program Highlights & Benefits

- It's interdisciplinary in nature, which helps students learn to make meaningful connections among disciplines
- All activities correlate with the Next Generation Science standards and the Common Core standards
- It builds bridges between corporations and classrooms by giving teachers, volunteers, and students the opportunity to work together and learn from each other
- More than 72,000 curriculum/challenge kits have been provided; over 4.5 million students participate; more than 30,000 volunteers.

Industry Support & Volunteers

- Industry support is essential to this program. Corporations and their employees can influence the ways in which youth are prepared to meet the future by sponsoring schools in their communities. By doing so, schools can qualify to receive free or low cost AWIM program Challenge kits.
- Industry volunteers provide students with first-hand impressions and information about careers in their chosen profession and serve as an in-classroom resource for teachers.

Accordingly, Johnson Controls has been supporting certain Milwaukee county schools by providing the kits and volunteering hours over the past 8 years. This year, the “Jet Toy” challenge will be held for three Elementary schools – Atwater, Lake Bluff, and Kluge – proudly in collaboration with SAE - Milwaukee Section and broader SAE members as of the volunteers to enrich the students’ hands-on experience.

The program will be started in early February.

For more information on volunteering, please contact Negin Salami:
